Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 27-28, 32, 35-36 and 56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tranquilla (U.S.Pat.5,824,133) in view of the admitted prior art Salsman et al. ("Short pulse microwave treatment of disseminated ores"). Tranquilla discloses a microwave treatment of metal bearing ores and concentrates that shows many of the features of the claimed invention but fail to explicitly show pulse lengths of .1 or .01 seconds duration. Salsman discloses a method of short microwave pulse length treatment of disseminated sulfide ores that explicitly show pulse lengths less than .01 to .1 seconds. It would have been obvious to one of ordinary skill in the art at the time of the claimed invention to use a short microwave pulse as taught by Salsman with the method of Tranquilla to create thermo-mechanical stress in the ore particles.

Response to Arguments

Applicant's argument that Tranquilla teaches away from the claimed invention by causing chemical reactions please note that the claimed invention although avoiding significant chemical changes still causes chemical changes.

Allowable Subject Matter

Claim 37 is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

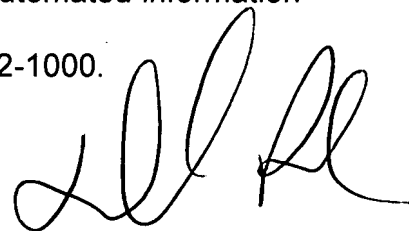

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dalton, Dalton'138. Kingston, Rokhvarger, Hargett, Hargett'865 and Klaila are cited to show structure and methods similar to the claimed invention.
